Copy 8 of 8.

16 April 1956

MEMORANDUM FOR : Project Director
SUBJECT : Film Container Markings

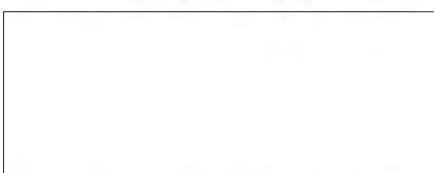

REFERENCE : Suppliers Meeting - 29 February, 1 March 1956 -
Action Requirements (IS 143242/1)

1. Paragraph N.S.(b) of the referenced document indicates that [redacted] of Eastman requires information on film container markings which will be compatible with the project cover story. Since the cover story maintains that AMS is acting as executive agent in support of operations overseas and "that other USAF components are of course performing supporting roles", any normal USAF shipping address would be appropriate for the film containers.

25X1

2. Since the question of specific markings for the film containers is a matter on which our Material Office should pass, the undersigned asked for [redacted] recommendation. [redacted]
